

KS2 SATS

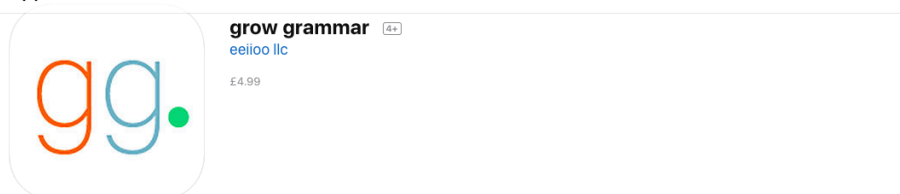

Some parents have asked if there are any SATS specific apps that they could purchase to use at home. These apps provide some content that will be useful for the KS2 SATS. These apps can be purchased on the iTunes App store for IOS devices. Please check on GooglePlay to see if they are available for Android devices.

I have provided links to these apps. Click on the name of the app to link to them on the App Store.

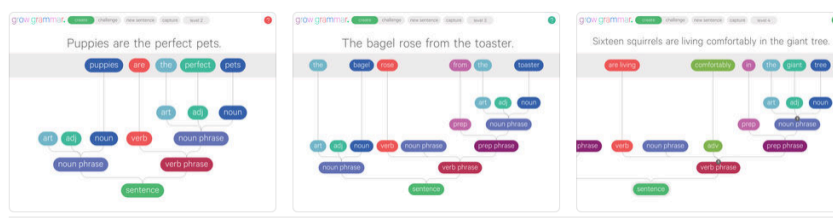

Please note that there are also many FREE SATS resources available online. The Y6 teachers have provided web links for where to access these.

[Grow Grammar](#) (only available for IOS devices): This is an excellent resource to help pupils with grammar.

Squeebles Spellings: This is a great App for helping your child to learn spellings. Once you have purchased the app you can download a series of free spelling tests within the app (matched to the Y6 curriculum). Your child's Y6 teacher can also provide you with a list of spellings specifically for your child that you can then add to the app.

Squeebles Spelling Test

SqueeblesPunctuation: This app provides punctuation practice in a fun way.
